

Cherokee Nation Code Annotated

Title 27: Environmental Quality

Chapter 14: Underground Injection Control

§ 1404. Prohibitions

Cite as: 27 CNCA § 1404

The following underground injection wells are prohibited within Cherokee Nation:

1. Class I wells for hazardous waste or radioactive waste;
2. Class III wells except those for mining of salts;
3. Class IV wells for hazardous waste or radioactive waste;
4. Wells prohibited by duly promulgated rules of the Commission;
5. Any well that the Commission finds:
 - a. will create an unreasonable risk of harm to wildlife, human health, natural resources, waters of the Nation and other parts of the environment, or
 - b. is not the most technologically advanced or environmentally sound means of waste disposal or mineral extraction.
